Welcome

I invite you to join us at this year's WA Tax Retreat, a unique forum to engage with esteemed colleagues and presenters alike, at WA's favourite holiday destination.

This year we've relocated to the picturesque Pullman Resort at Bunker Bay in the heart of WA wine country. Running over 1.5 days (discounted accommodation is available), this event will provide delegates with high-level technical and practical content and unrivalled networking opportunities.

This year's WA Tax Retreat features an all-star cast of both local and interstate favourites, including Daniel Smedley, CTA, Sladen Legal and Linda Tapiolas, CTA, Cooper Grace Ward Lawyers who will be flying in from Melbourne and Brisbane.

As always, the program has been designed to encourage lively discussions with five workshops on hot topics: The Small Business CGT Concessions, Family Trusts Elections, The \$3m cap and Div 296, Extraction of Wealth and Ethics, Professional Codes & Your PI Insurance!

This top-class technical program is reason enough to attend but let's face it, a trip to Bunker Bay would be wasted without a chance to take in the salty air, the breathtaking views and indulge in the finest food and drink the region has to offer. The program has been planned with this in mind. Day one will close with an offsite dinner at the award-winning Rustico at Hay Shed Hill and we'll toast the conclusion of the Retreat at the Pullman Resort with a networking reception, where delegates can continue their conversation with old and new connections over drinks.

I'd like to extend a huge thank you to the organising committee and our presenters for their efforts in curating this program and ensuring that this event continues to be a high calibre event of relevance for all attendees.

I look forward to seeing you in Bunker Bay!

Modiesha Stephens, CTA
Chair, WA Tax Retreat Organising Committee

This session will explore real-life scenarios focused on the uncertainties in applying the concessions in practice including: <ul style="list-style-type: none">• Tips and traps in applying the maximum net asset value test and aggregated turnover tests• Application of the 'active asset test'• Additional tests to be satisfied where the CGT events in relation to shares in a company or units in a trust• Common errors in applying the small business retirement exemption and small business roll-over• Extracting the proceeds of sale from unit trusts and companies tax effectively; and• (Re)structuring into trouble...Part IVA.

Technical program

Day 2 Friday, 2 August 2024

Time AWST	Session
8:30-9:00am	Registration
9:00-11:00am	Session 4: Unlocking wealth in family structures Speaker: Daniel Smedley, CTA, Sladen Legal Recognising that no two families are alike, we will address the multitude of different issues that often arise when providing solutions to family groups looking to extract wealth from family structures. This session will explore taxation, structuring, succession, and trust law concepts all within the context of various family dynamics. Throughout the session, practical examples will illustrate common challenges and provide actionable solutions. Among other issues we will address: <ul style="list-style-type: none">• Analysis of taxation issues related to wealth extraction• Examination of entity structuring for asset protection and growth• Discussion on succession planning within family groups; and• Exploration of trust law and its impact on wealth management.
11:00-11:30am	Morning tea
11:30am-1:30pm	Session 5: Family Trust Elections Speaker: Linda Tapiolas, CTA, Cooper Grace Ward Lawyers The rules about family trust elections, in particular who is part of the 'family group' and what are 'distributions', are quite complex and commonly misunderstood. A proper understanding of these rules is critical because distributions outside of the 'family group' could result in the family trust distribution tax being triggered. Family trust distribution tax, if triggered, is a debt that is not subject to a review period and for which the entity (which makes the distribution), together with the individuals who are directors or trustees, can be jointly liable. Therefore, it is important that advisers understand the concepts of 'family group' and 'distributions'. Following the success of the Family Trust Elections session at this year's WA Tax Forum, this workshop will further explore real-life scenarios delving into common issues encountered by practitioners including: <ul style="list-style-type: none">• What are the implications of making a FTE or IEE• When is a FTE or IEE required• Requirement to make a valid FTE or IEE (including issues for testamentary trusts in meeting the 'family control' test)• What are 'distributions'• Which individuals and entities are part of the 'family group'• Who is liable for FTDT• What should the trust deed say to help with these issues; and• Passing control of trusts to the next generation.
